

Ed-Fi RFC Home

Welcome!

This site contains resources, links, draft technical material, and draft documentation for the Ed-Fi Data Standard Request for Comments (RFC) process.

Active Ed-Fi RFC Documents

The Ed-Fi Alliance is actively soliciting comment on the following topics:

- [ED-FI RFC 1 - API PATCH](#)
- [ED-FI RFC 4 - ENROLLMENT API](#)
- [ED-FI RFC 7 - CORE STUDENT DATA MANAGEMENT API](#)
- [ED-FI RFC 15 - ASSESSMENT OUTCOMES API](#)
- [ED-FI RFC 16 - CORE STUDENT DATA API](#)
- [ED-FI RFC 18 - FINANCE API](#)
- [ED-FI RFC 19 - ENROLLMENT API FOR SUITE 3](#)
- [ED-FI RFC 21 - ASSESSMENT OUTCOMES API](#)
- [ED-FI RFC 22 - ASSESSMENT OUTCOMES API](#)
- [ED-FI RFC 23 - API DESIGN AND IMPLEMENTATION GUIDELINES](#)
- [ED-FI RFC 24 - CORE STUDENT API](#)

Feedback

Community feedback is critical to the RFC process, and the Alliance welcomes feedback from anyone.

Feedback does not need to be long or comprehensive. It is enough to cite a particular K–12 use case where the technology would or would not be able to represent a common scenario. However, if readers have more lengthy written feedback, existing reports or alternative fully articulated data models, please feel free to share those.

The primary mechanism for feedback is via the Ed-Fi Alliance general project in the Ed-Fi Tracker. Licensees can [submit RFC feedback by clicking this link](#) (login required). Licensees and the general public can view existing feedback here: <http://tracker.ed-fi.org/projects/EDFI/> (login not required). When entering a feedback ticket, please reference the RFC number, change, or specific fix on which you are commenting, if applicable.

If you need an account for the Tracker, please go to <http://www.ed-fi.org/access-request/> (note the [Technical Community Guidelines](#) if you are curious about what Ed-Fi Alliance services you can access).

Community discussion is also welcome via [Ed-Fi Slack](#).

Quick Links to Ed-Fi Standards Materials

- [Ed-Fi Standards Development Process](#) - explains how Ed-Fi technical standards are developed
- [Ed-Fi Data Exchange Standards Home](#) - final, approved standards
- [Ed-Fi RFC Home](#) - formal drafts of standards out for community review ("request for comment")
- [Ed-Fi RFC Home](#) - early, community-submitted proposals
